| TITLE/SIGNIFICANCE: | |
| FIRST EVIDENCE OF DEPLOYED CAT-1 (CHINESE ANTITANK MISSILE) | |
| COMMENT: The correlation of terrain features at this new combined arms training area with open source photography provides the first satellite evidence of CAT-1 deployment. The CAT-1 is positioned to provide overwatching fire for personnel trenches and to reinforce anti-tank trenches and obstacles. The covered rectangular position is atypical and intended for demonstration purposes. | |
